**Special Prayers**

Joyce Seale writes, "Please pray for my sister, Lori McIntyre. She was in the hospital last month with a bleeding ulcer. A follow up examination showed the ulcer has not healed and was worse. She was admitted to the ICU for a biopsy of the ulcer tissue. The doctors think she could have a tumor making too much gastric acid, or that she could have cancer. Either way she will probably need some surgery as part of the treatment. We won't hear the results of the biopsy for another two days."

Winnie Starks requests prayer. Her doctor has discovered a blood clot behind her left knee. Pray for God's wisdom in what is needed to be done by the doctors.

Pat Hall writes, "Please lift up my co-worker's nephew, Eric Lang, who had a heart attack. He is only 38 years old."

Patsy Garner requests prayer for her husband who had knee replacement surgery yesterday. He is recovering well at Northeast Baptist Hospital.

Ruben Fechner writes, "Mike's biopsy was scheduled for Thursday morning, July 22. Please pray for complete healing. When you have an opportunity read his blog at [mikefechner.com](http://mikefechner.com) and you will be able to pray with understanding as you hear his heart."

Andrew Cooper requests prayer for his wife, Faye, who was scheduled for a CAT scan yesterday. She is having trouble with her neck.

Carl Tindle requests prayer for his mother who was diagnosed with NPH( basically water on the brain). The pressure buildup has caused her to become unbalanced and fall. Please pray for wisdom and healing.

**Mission Prayer**

Jan Pelton writes, " Continue to pray for Steve. He is very sick. The doctors say one thing and decide to do something else. His white blood count is down which is good. The CT scan shows air and fluid either on or at his pancreas. He is getting weaker and his breathing is very shallow. Pray for wisdom, healing and comfort. Pray as the Lord leads."

Please pray for Rodger Schievelbein's wife, Lanell. She had some complications from the
